

INSTINCT® EAST HARLEM DAYCARE

for Behavioral Health

We do daycare differently. Our specialized daycare programs help you protect and enhance your dog's behavioral health through physical activity, brain games, enrichment, companionship, and play.

HOW IT WORKS:

Our daycare programs are overseen by canine behavioral health specialists. We offer programming for dog-social dogs, and for dogs who prefer the company of humans. Daycare programs provide your dogs with a range of experiences and activities designed to fulfill their most important behavioral needs, such as:

- Small playgroups (~2-5 dogs per group), carefully matched by size and play style. *Only available for highly dog-social dogs with no history of aggression.*
- Obstacles and agility work
- Scent games/nose work
- Digging games
- Shredding and tearing activities
- Chasing, gripping, and tugging games
- Scavenging and foraging games
- Empowerment games that offer choice & control
- Relaxation games
- Dedicated rest times in a private kennel
